

Parent Resource Center 2020-2021

What? An educational service and resource center that addresses your parenting needs and school related issues for you.

Why? As founders of Education Connection Advisors, our team focuses on helping parents navigate the school admission process but we are often asked by parents to help them with various parenting and school issues beyond school selection. We have realized that there needs to be one central place where you can get your answers and have a relationship with a team who understands your family and your needs. Thus, we have created our center to address your concerns, questions and be there for you as a sounding board and resource for all ages and stages of childhood, from birth through high school.

How does it work? Our 12-month membership includes phone and email access to the educational experts of Education Connection Advisors who will answer your specific questions regarding your family's needs. Our team of three experts collectively has over 50 years of educational experience in the school world.

The Parent Resource Center membership does not include the school placement area and admission process. If you are worrying about the next level of school for your child, please contact us for further information on our school placement services.

Specifics Topics That May Be Covered:

School:

- Social, emotional and academic problems at school
- Homework concerns and strategies
- Reading readiness
- Understanding report cards and preparing for parent teacher conferences
- Logistical concerns such as holding back, summer birthdays, and school cutoff dates
- Testing: what is a psychological evaluation, analysis of testing evaluations, creating a plan for supplemental tutoring and extra help when needed
- Curriculum: Virtual learning curriculums and analysis; changes and developments in academic culture and curriculum
- Summer planning and activities

Emotional Development:

- Stress, anxiety and depression; isolation
- Helicopter parents, the hurried child syndrome, self esteem and confidence challenges, appropriate activities while not overscheduling
- Nutrition
- Individual concerns of each child
- Developing rules and creating balance

Family Resources:

- When do we bring in the specialists; whom do we bring in and why.
- We can make referrals to psychologists, occupational therapists, speech therapists, pediatricians, and other noted experts

Extracurricular Educational Opportunities:

- Recommendations on educational programs, summer camps, events, creative projects and ideas that fit your child's needs, interests, and areas of growth

Cost:

Program A- \$500 per year which will give you access to our team for either 2 hours of in person time or up to 3 hours of educational advice by email or phone.

Program B- \$850 per year which will give you access to our team for either 3 hours of in person or up to 4 hours of educational advice by email or phone.

Program C- \$1200 per year which will give you access to our team. This program is the most comprehensive and the team will check on your family monthly and deal with each issue that arises.
